SUMMARY

Computer Science Engineering graduate with hands-on experience in Full-Stack Development, Artificial Intelligence, Machine Learning, and Generative AI. Skilled in building scalable web applications, developing AI-powered solutions, and solving real-world problems through innovative technologies. Passionate about continuous learning and eager to contribute to impactful software and AI projects while growing as a technology professional.

EDUCATION

Bachelor of Engineering in Computer Science

Udupi, Karnataka

Shri Madhwa Vadiraja Institute Of Technology and Management, Bantakal

CGPA: 8.5/10 Oct-2022 - May 2026

EXPERIENCE

Generative Ai Developer

June 2025 - May 2026

Climetaverse

Coimbatore, TamilNadu

- Developed responsive full-stack web applications using React.js, TypeScript, Django, PHP, PostgreSQL, and MySQL, integrating REST APIs, authentication, Machine Learning Models and database operations.
- Collaborated on frontend and backend feature development, performing testing, debugging, deployment, performance optimization, and version control using Git/GitHub.

Full Stack Web Developer Intern

Febraury 2026 - April 2026

Vrishnsoft

Belgavi, Karnataka

- Developed the Digital Time Capsule web application using React, TypeScript, Django, Django REST Framework, and MySQL, building responsive interfaces and integrating secure RESTful APIs with JWT authentication.
- Collaborated in an agile team to implement, test, debug, and deploy application features, leveraging React Query, React Hook Form, Zod, and Git/GitHub for efficient development and version control.

PUBLICATIONS

Arif, Alfiya Banu Mohammed, Ashmitha D. Kotian, Apoorva Bhatt BR, Gagan Sherigar, and Soumya J. Bhat. "Comparative Evaluation of RegNet Architectures for Multi-Task Skin Cancer Detection." In 2025 IEEE Pune Section International Conference (PuneCon), pp. 1-5. IEEE, 2025.

PROJECTS

FACULTRACK - Smart Appraisal & Academic Contributions Management System

2025

- Developed FaculTrack, a smart faculty appraisal management system using PHP, MySQL, HTML, CSS, JavaScript, and Bootstrap, enabling appraisal submission, document uploads, and secure role-based access.
- Implemented features for performance tracking, analytics dashboards, leaderboards, and automated evaluation workflows, improving transparency, efficiency, and academic appraisal management.

SKINDETECT: AI Powered Skin Cancer Detection

2025 - 2026

- Developed an AI-powered skin cancer detection and segmentation system using PyTorch, RegNet architectures, and multi-task deep learning, trained and evaluated on the HAM10000 dataset for accurate classification.
- Applied image preprocessing, lesion segmentation, and model optimization techniques to improve classification performance and support early skin cancer diagnosis.

SKILLS

Programming Languages: Python, Java, C, PHP, SQL, JavaScript, TypeScript, HTML, CSS

Frameworks / Platforms: React.js, Next.js, Django, Flask, PostgreSQL, XAMPP

AI / Machine Learning: PyTorch, TensorFlow, Pandas, NumPy, Matplotlib, OpenCV, Machine Learning, Artificial Intelligence, Agentic AI, Workflow Automation

Developer Tools: Git, Docker, Uvicorn, Figma

Spoken Languages: English, Kannada, Tulu, Hindi

Certifications & Training: Google Cloud Gen AI Academy APAC 2026 (Google Cloud), Foundations of Prompt Engineering (AWS), Introduction to Generative AI (IBM SkillsBuild), Artificial Intelligence (IBM SkillsBuild), Front-End Web Development (IBM SkillsBuild), Foundations of Cybersecurity (Google Coursera)

Achievements & Activities: Participated in Hackotsava (National-Level Hackathon), Code Meet 2025 at Srinivas Institute of Technology, and participated in multiple technical workshops.
